I serve as Randall Community Water District's General Manager and hereby provide a commendable reference for OLA Concrete of Platte, South Dakota. Their product and staff are first rate in the industry. They have completed several projects in size and scope of RCWD. On a large scale OLA in 2014 built and installed our pre-cast concrete facility for our Phase III treatment plenty. This was a multi-million dollar project, and stands today as a model for the Rural Water Industry. In addition, they have built several pre-cast underground pressure reducing vaults. Those vaults have become the typical vault for RCWD. OLA provides all of the requirements from Engineering to installation. RCWD looks forward to a long relationship with OLA, and recommends them with high regard.

Scott Pick
Randall Community Water District
General Manager

RCWD
